ERRATUM   **Open Access**

Erratum to: A novel anatomic severity grading score for acute Type B aortic dissections and correlation to aortic reinterventions after thoracic endovascular aortic repair

Shirui Chen, Sebastian Larion, Sadaf S. Ahanchi, Chad P. Ammar, Colin T. Brandt and Jean M. Panneton[*]

Erratum

The original article [1] contained an error in the Abstract whereby the symbol '$\leq$' was incorrectly used in the following sentence:

"Anatomic severity grading scores $\leq$23 are an excellent predictor of aortic-related reinterventions."

The original article has now been updated so that the correct symbol, '$\geq$' is used instead to display the following corrected sentence:

"Anatomic severity grading scores $\geq$23 are an excellent predictor of aortic-related reinterventions."
